

## ASSA ABLOY EMS&OEM GROUP 2015 COURSE OFFERINGS

ASSA ABLOY is proud to offer the following educational courses covering Adams Rite®, HES® and Securitron® product lines. These courses will educate the attendee on various levels of product/technical knowledge, selling techniques, site survey, and system design and product installation.

### Maglocks: The Good, The Bad and The Ugly

<b>Course Length:</b>	2 hours
<b>Class size limit:</b>	Unlimited
<b>Credits offered:</b>	ESA 14-4162 .2 credits
<b>Attendees:</b>	Locksmith, Integrators, Distributors, AHJ's personnel
<b>Content Balance:</b>	100% instructional

#### Course Description:

This course will address some of the folklore, misconceptions and history of Maglocks. It will display some of the reasons why agencies presented concerns about Maglocks and why the reasons are no longer valid if ever were true. Additionally this course will site why there was confusion in codes and compliance as well as how to take action to dispel those myths. The following topics that will be covered are:

- Welcome
- Who is Assa Abloy
- Changes in Industry Technology
- How did it happen?
- The Ugly
- The Codes and Requirements
- Combating the Ugly
- The Good (Maglocks)
- Magnetic lock terms, application and products
- Releasing the Door
- Tools and Support
- Summary and questions

**Note:** This class requires a classroom style configuration.
